Accurate Custom Tablature™ *Banjo TabList* -- Sorted by:PLAYER

This list consists of over 900 banjo transcriptions previously ordered by A. C. T. customers. This page describes the features of the list and how to order.

EXAMPLE OF AN ENTRY IN THE LIST:

1.	2.	3.	4.	5.
TITLE	POSITION	PLAYER/ARR.	PAGES	COMMENTS
LOW AND LONELY	G	EDDIE SHELTON	1	UP-NECK

- 1. Title of tune.
 - Some songs are known by more than one title. Example: "The Ballad of Jed Clampett" is sometimes referred to as "The Beverly Hillbillies." Ocassionally, if a tab is not on the list, you may find it under another title.
- 2. Position out of which piece is played. Not necessarily the key from the recording.
 - Example: Though a song may be in the key of A, it may played out of the open G position with a capo at the 2nd fret. This would be listed as "G position." You can can decide about capo usage.
 - With common "open G tuning" G, C, and D are the most common open positions. G and C positions use open G tuning. D position also uses G tuning, but also usually capos the 5th string up to an A note at the 7th fret.
 - Other tunings such as D tuning (a D F# A D) or C tuning (g C G B D) are noted.
 - The actual key of the song along with capo-ing information is noted on each tab.
- 3. Name of player on the recording from which this piece was transcribed. (if known that is if supplied by customer)
 - Where the name "Steve Garner" appears, these are customer ordered solos custom arranged by Steve Garner.

NOTE: No.'s 4 and 5 below appear only with some titles

- 4. Number of pages of tab for the song. Most titles contain at least one full solo, some have more than one solo and some have some backup. Larger number of pages usually reflect multiple solos and/or backup.
- 5. Comments about the tab such as playing style or band name. Email to request more information about any tab.
