Accurate Custom Tablature™

* * * Banjo TabList * * *

This list consists of **over 750** banjo transcriptions previously ordered by **A. C. T.** customers. This page describes the features of the list and how to order.

I. EXAMPLE OF AN ENTRY IN THE LIST

| 1 | 2 | 3 | 4 | 5 |
|----------------------|-----------------|------|-----|-------------------|
| PLAYER | TITLE | POS. | PG. | COMMENTS |
| 270 Dennis Caplinger | St. Anne's Reel | G | 1 | B Part |
| 271 Dick Smith | Night Ridin' | G | 1 | Country Gentlemen |

- Name of player on the recording from which this piece was transcribed (if known.) Where the name "Steve Garner" appears, these are customer ordered solos custom composed by Steve Garner.
- Title of tune.
 - Some tunes are known by more than one title. Example: "The Ballad of Jed Clampett" is sometimes referred to as "The Beverly Hillbillies."
- Position out of which piece is played. Not necessarily the key from the recording.
 - Example: Though a song may be in the key of A, it may be played out of the open G position with a capo at the 2nd fret. This would be listed as "G position."
 - G, C, and D are the most common open positions. G and C positions use open G tuning. D position also uses G tuning, but also usually capos the 5th string up to an A note.
 - Other tunings such as D tuning (a D F# A D) or C tuning (g C G B D) are so noted.
- Number of pages of tab for the song. Unless otherwise noted, all titles contain at least one full solo, some have more than one solo and some have some backup. Larger number of pages usually reflect multiple solos and/or backup.
- Comments regarding the tablature such as playing style or band name. Due to space limitations there may not be enough room to fully describe every solo. Email, call, or write for more information about any title.

Some Terms Used In "Comments" Section

- | | |
|---|------------------------------|
| OT = old time (3 finger style, but pre-Scruggs) | SS = single string technique |
| Scr. = Scruggs style (all are Scruggs style unless otherwise noted) | dn = down the neck solo |
| slow = refers to style(s) commonly used for slow songs where up-tempo rolls are not appropriate | up = up the neck solo |
| | mel. = melodic style |
